Fishbowl 203	2	2:00 PM	2:30 PM	all	Tech Problem Solving - teams must report to clean area after judging ends
Zone	1	3:00 PM	3:45 PM	173	Awards Ceremony

Tips for Schedule Conflicts and Registration Changes:

Students with schedule conflicts should report to their earlier event to complete the contest, time permitting they should then report to the second event. If the judges are still conducting the other event, we will make every effort to allow them to participate. For example this might require that they move to the end of an interview line. In the case of a complete overlap of events, students will need to choose the event in which they want to compete, as we cannot adjust the schedule. In the case of team events when necessary you may request a team member change at the registration desk. Advisors our online records and awards session will be announced based on the most current registration data, so any on-site changes must be made as soon as possible.
